

CFAAC Non-Discrimination Grant Policy

The Community Foundation of Anne Arundel County (CFAAC) supports organizations, programs and projects that do not discriminate or otherwise deny services, based on race, color, religion, national origin, sex, gender identity, sexual orientation, age, mental or physical disability. It is not the intent of this policy to deny grantee support for targeted programs or services to a particular population when the targeted group(s) require specialized programs to meet specific needs not shared by the general population. CFAAC does not knowingly award grants to organizations that discriminate in their hiring, the clients they serve, or those they accept as volunteers.
